

1. Prima Dental Manufacturing Limited will use this policy as a framework for setting and reviewing energy objectives and targets in order to improve energy performance and reduce the relevant energy sources used. Prima Dental will also ensure the availability of the necessary information and resources to implement and establish ISO 50001 Energy Management Systems (EnMS).
2. Prima Dental is fully committed at its facilities and during its activities to making efficient use of its energy and build environmental, social and economic sustainability Model. Prima Dental Management will lead and promote energy efficiency programmes ensuring that the strategies are in accordance with the principles established in our ISO 50001 Energy Management System.
3. The management will deliver a healthier and more sustainable environment, cost efficient environmental solution to benefit our people, customers and communities that we operate in.
4. Prima Dental will ensure compliance with implementation and maintenance of ISO 50001 Energy Management systems, applicable legislation and other requirements related to energy efficiency, energy use and energy consumption. Prima Dental EnMS Systems are an important and integral part of the business function, which will be reviewed on a regular basis to ensure continuous improvement.
5. Prima Dental Energy Management systems will ensure that Prima Dental will identify and relate to all energy aspects and other requirements to which the organisation subscribes related to energy performance, including energy efficiency and the use of energy consumption reports. The company will also encourage the adaption of its operations and facilities to ensure compliance with future legal changes, and will establish common standards for the management of energy efficiency in all areas of business in which it operates.
6. Prima Dental Procurement will support the purchase of energy efficient products and services, and design for energy performance improvement
7. In order to promote to greater awareness among all of the stakeholders, Prima Dental will provide them with reliable and transparent information regarding its energy consumption, its corresponding greenhouse gas emissions and the improvement.
8. Prima Dental will support this policy with the implementation of Energy Champions across the organisation to help reduce energy consumption.
9. Overall responsibility for all Energy Management at Prima Dental Manufacturing Limited is vested in me by virtue of my appointment as Managing Director. The overall responsibility for the day to day implementation of this policy is appointed to the HSE Manager.
